Python programming | Django | SQL | HTML | CSS | Tailwind CSS | JavaScript | React.js | Core Java | Figma | Git/GitHub | Power BI

PROJECTS

E-Commerce Website

- Designed and developed responsive e-commerce frontend. Optimised user experience across devices

BookMyShow UI/UX Design (Figma)

- Designed a complete movie ticket booking application inspired by BookMyShow. Created wireframes, user flows, and high-fidelity prototypes
- Designed responsive screens for movie listings, seat selection, booking, and payment

SID Solution – Company Management System

- Developed a company management system to manage employees, projects, and company records
- Designed secure login and authentication features
- Integrated database management using MySQL. Implemented CRUD operations for employee and project management

SUMMARY

Motivated and detail-oriented Full Stack Developer with hands-on experience in Python, Django, React.js, JavaScript, SQL, and Git/GitHub. Currently pursuing BCA and building scalable web applications through academic and personal projects. Passionate about developing user-friendly applications, solving real-world problems, and continuously learning modern web technologies
